

Representing Full-Time and Partial-Load Professors, Counsellors, and Librarians at Seneca College

# Strike Vote

Your OPSEU bargaining team has spent their summer presenting the bargaining demands that originated in each College Local's Demand Setting meetings.

These demands include:

- decision-making authority for faculty in the classroom;
- salary increases that reverses our salary erosion against our established comparators;
- a meaningful say in College governance;
- a workload formula for counsellors & librarians;
- and fair, equal treatment for contract faculty.

YES  
 NO

## Stand Firm On Our Demands Vote **Yes** On 14 September

All summer, the Employer has refused to discuss these issues at the bargaining table, settling instead to offer a raise that doesn't keep up with predicted inflation and that will fail to help us gain ground against our comparator groups.

*Management isn't going to engage with faculty issues unless we show that we're serious about them.*

Please learn about the issues at:  
<http://opseu560.org/bargaining-2017/>
